RIVERCRUISE

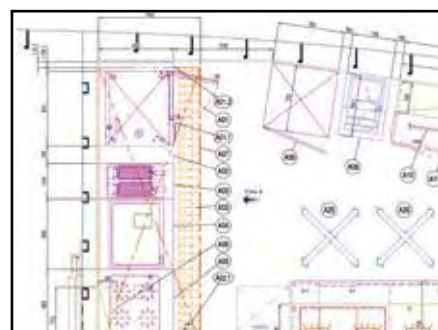

Quality and Competence

OUR COMPETENCE

The company August F.M. Bohnhoff, was founded in the year 1875. Traditional standards of craftsmanship and lots of experiences are the essential prerequisites for the production of high-quality catering equipment for ships. The production of appliances for seagoing-ships started in the early years of the 20th century.

Your requirements and our experience provide the base for a successful cooperation. Your projects will gain a lot from our competence. The most modern design facilities provide efficient planning. We support your project from the initial planning up to the final commissioning. Daily dispatch of spare-parts is an important issue of our business.

LAYOUT

ELEVATIONS

INSTALLATION
